BECKERT'S WHOLESALE LIST

OF

Vegetable and Flower

SEEDS

FOR MARKET-GARDENERS *and* FLORISTS

Issued January 1, 1909. Prices subject to change

This list annuls all previous prices

THIS WHOLESALE CATALOGUE contains a list of all such varieties as are generally used by Florists and Market-Gardeners, and in addition our Specialties and New Introductions of approved merit. Of the host of Novelties brought to notice every year, there are but few, indeed, that possess any intrinsic value. These we avoid, with the exception of such as we find, after careful tests, worthy of introduction.

Full descriptions of all varieties listed in this Catalogue will be found in our General Catalogue, a copy of which will be mailed herewith.

Seeds will be sent postpaid at the prices herewith quoted for ounces and quarter-pounds. When quantities of one-half pound and upward are ordered to be sent by mail, postage at the rate of 8 cents per pound must be added to the Catalogue price.

Florists' Flower Seeds

We devote as much care and attention to the department of florists' seeds as to that of vegetable seeds for market-gardeners. Our stocks are grown for us by specialists, both at home and abroad, and entire confidence can be placed in our strains herewith offered, as it has always been our policy to secure the very best obtainable, cost being a secondary consideration. We would specially recommend our strains of *Aster*, *Calceolaria*, *Cineraria*, *Pansy*, *Petunia*, *Primula*, *Stocks*, *Verbena*, *Cyclamen*, *Mignonette*, and all such other seeds as are in demand by florists. Seeds here quoted in trade packets contain liberal quantities proportionate with ounce price; such seeds as are used in any quantity are also quoted by the ounce. We also quote the retail price of seeds in packets from which we allow florists a discount of 25 per cent.
